H. E. the Governor through H.M.

This I submit is not a matter of public interest. Nor have this Govt. any materials for deciding whether an enquiry is necessary or not. As far as I am aware no petitions or complaints have been received by Govt on this subject, although I know that some years ago the working of the 4th B.C. was considered difficult. I was informed however by the present Chief Engineer that these difficulties had been overcome. I think that the resolution may be disallowed.

HCl 19/3/13

The matter is one which no doubt interests a section of the public

but it is contrary to the public interests that the time of the Council should be ~~wasted~~ taken up in discussing a matter of this kind. I would disallow the resolution but tell the Hon. Member that, if he or the ryots affected will state the nature of the complaints against the existing system of distribution the Govt. will make an inquiry and communicate their decision to him. If he is dissatisfied with that decision he can consider whether he ~~will~~ will ~~ag~~ then propose a Resolution of the subject.

D.O. 801-4 of 26.3.13

Dear Sir,

I am directed to inform you that His Excellency the President has disallowed your resolution regarding the adequacy of existing arrangements for the supply of water in certain Periyar channels under rule 7, as in his opinion the resolution is of such a character that it cannot be moved consistently with the public interests. I am however to add that if you or the ryots affected will state the nature of the complaints against the existing system of distribution, the Government will be glad to make an enquiry and communicate their decision to you. If you are dissatisfied with that decision, it will be open to you to consider whether you will then propose a resolution on the subject.
